TECHNICAL KNOWLEDGE :

- **Operating System :** Windows
- **Coding :** C++ , Matlab
- **Tools:** CAD , Fusion 360 , Ansys

EDUCATION :

- **Bachelor of Technology in Computer Science and Engineering**
SVERI's College of Engineering, Pandharpur
Expected Graduation: June 2028
CGPA: 10.0 / 10.0.
- **HSC**
New English School Jr. Sangola
Completed: 2024
Percentage: 71%
- **SSC**
Vikas Vidyalaya Ajanale
Completed: 2022
Percentage: 86%

STRENGTH

- Adaptability
- Leadership
- Problem Solving

LANGUAGES KNOWN

- **Marathi:** Native / Mother Tongue
- **Hindi:** Fluent
- **English:** Conversational

OBJECTIVE :

A motivated student seeking an entry-level opportunity to apply theoretical knowledge, improve technical skills, and grow along with the organization.

PROJECTS :

1.Regenerative Braking System :

Basic knowledge of Regenerative Braking System, used in electric and hybrid vehicles to convert kinetic energy into electrical energy during braking.

2.Solar Powered Smart Helmet :

Developed a Solar Power Smart Helmet that uses solar energy to power safety components such as LEDs and sensors, enhancing rider visibility and energy efficiency.

CERTIFICATES :

- Advanced C by Code-Chef
- Matlab Onramp by Mathwork

PUBLICATION :

- Development operator CO2 convergence system For industrial fuel gas and solid carbon recovery
- Development op biodegradable cow dung Agriculture waste composites For sustainable construction and eco friendly application.
